- **Clip Height:** 8,5 mm \pm 0.5 mm.
- **Available Colors:** Black.

Working conditions

- **For use only in greenhouse.**
- **Crop application:** Tomato & pepper.
- **Recommended Temperature:** 20–35 °C.
- **Humidity Range:** 50–90%.
- **Clipping Frequency:** Every 7–10 days (increase for heavy crops).
- **Chemical Exposure:** May affect material performance.

Instructions of use

1. Remove clips individually from the box to avoid nesting.
2. Pre-bend the hinge using three fingers.
3. Place the hinge in contact with the string.
4. Hold the plant stem and close the clip under one or two branches.
5. Ensure the clip is fully closed and the string is properly positioned.

Stocking conditions

- Stock the boxes in a dry and fresh place
- Avoid direct exposure to sun or heat sources
- Stock 24h in warm conditions before use

- The product specifications are subject to change without notice to improve reliability, function or design or otherwise.
- It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application.
