The ARaymond Network*

For more than 150 years, the ARaymond network has grown from generation to generation by designing, developing, manufacturing and marketing fastening and assembly solutions. ARaymond France has drawn on its expertise in plastic injection moulding, metal transformation, and assembly to create technical solutions which it makes available to companies in the Construction, industries.

expertise center

11 engineering centers

29

production sites worldwide

7500

men and women form the backbone of the ARaymond network's richness and diversity

1600 active patents

25,000 products in production
